ABOUT ME

4th-year Information Technology student with a strong focus on frontend web development.
Experienced in building responsive and user-friendly web applications using HTML, CSS, JavaScript, and React.js.
Passionate about improving UI/UX and continuously developing real-world coding skills.

EDUCATION

2023 – Present

Cavite State University – Main Campus, Indang
Bachelor of Science in Information Technology

2021 – 2023
Notre Dame of Trece Martires
ICT Strand – Graduated with Honors

EXPERIENCE

February 2026 – Present

Academic Research Group, CvSU — Developer

- Built responsive front-end interfaces using HTML, CSS, and JavaScript
- Integrated frontend with backend database functionality
- Collaborated on modular feature development for system performance

May 2023

Barangay Hall of Cabuco, Trece Martires City — Work Immersion Intern

- Assisted in optimizing data entry workflows for faster processin
- Digitized and managed pension records with improved data accuracy

April 2026 - Present

Layerflow — Frontend Developer Intern

- Designed and built 8 fully-wired dashboard UI tabs from scratch — including loading skeletons and empty states — replacing hardcoded mock data with live, real-time data
- Designed a Customer Journey Timeline UI for the customer profile view, with a vertical event layout and synced tab state
- Shipped a full brand design system across the product's UI
- Supported backend integration work, including new API routes and security hardening

SKILLS

- HTML
- CSS
- JavaScript
- React.js
- Git/GitHub
- Responsive Web Design
- UI/UX Design

PROJECTS

Capstone Research Project — Developer

- Developed a web-based system for managing facility service requests
- Designed responsive UI and connected it to a database
- Improved request tracking and user interaction
- Technologies: HTML, CSS, JavaScript, React.js, MySQL
